Omnilink Systems Selected to Present at CED's 25th Annual Venture Conference

Omnilink Systems Will Present as Late Stage Company at Leading Southeast, Mid-Atlantic Venture Conference

April 8, 2008 Atlanta, GA – Omnilink Systems announced today that it has been selected as one of thirty-six companies to present at CED's Venture Conference.

Scheduled for April 16-18, 2008, at Washington Duke Inn & Golf Club in Durham, N.C., CED's 25th Annual Venture Conference will showcase the Southeast and Mid-Atlantic's top investment opportunities to hundreds of venture capitalists and financiers from throughout the United States.

Omnilink Systems, a location-based services company, will present as one of the conference's Late Stage companies, as part of the Technology track.

Omnilink provides a location-based services platform that gives customers 24/7 visibility into the location of people and valuable assets. The company's solution, including its FocalPoint™ software and 24/7 monitoring center, is compatible with a broad set of location-enabled devices and communication networks. Government agencies and community corrections organizations across the country use Omnilink's one-piece offender monitoring solution to monitor the location of offenders in alternative sanctions programs. Enterprises use Omnilink's surveillance and loss prevention solutions to track a variety of valuable assets, from vehicles to bank bags in transit.

“This year’s Venture conference promises to feature the most exciting investment opportunities in the Southeast and mid-Atlantic regions,” said CED Venture conference co-chair Eric Linsley, partner, Pappas Ventures. “Not only does this conference offer access to an amazing pipeline of companies from pre-seed to mezzanine rounds of funding, but also an amazing range of technologies including cutting edge innovations in Technology, Life Science and Alternative Energy.”

“It’s an honor to be invited to present at the conference,” said Wain Kellum, CEO of Omnilink Systems. “We are looking forward to showcasing why Omnilink’s technology has been selected by companies and government agencies around the U.S. to monitor the location of people and assets that matter most.”

About Omnilink Systems

Omnalink Systems provides the real-time location of people and valuable assets through unique location-based services technology that goes beyond traditional GPS. Our judicial solutions are transforming offender monitoring by providing officers with immediate visibility to offender locations. Government agencies across the country rely on Omnilink Systems’ single-unit solutions to effectively manage offenders in a variety of alternative sanctions programs. Through our network of value-added solutions partners, Omnilink’s commercial solutions provide the real-time location of people and critical assets when their safety and security are of paramount importance. For more information, please visit www.omnilinksystems.com or call 678-624-5900.

About the Council for Entrepreneurial Development

The Council for Entrepreneurial Development, headquartered in Research Triangle Park, is a private, non-profit organization formed in 1984 to stimulate the creation and growth of high-impact companies in the Research Triangle, North Carolina and Southeast region. Since 2001, CED has helped triangle-area companies raise over \$2.6 billion in venture capital. CED provides education, mentoring and capital formation resources to new and existing high-growth entrepreneurs through annual conferences, seminars, workshops and programs on entrepreneurial management and finance. CED is the largest and

oldest entrepreneurial support organization in the nation with more than 5,000 members representing over 1,100 entrepreneurial companies, financiers and professional firms. For more information, visit www.cednc.org.
