FIERCEWIRELESS NAMES OMNILINK SYSTEMS AS ONE OF ITS "FIERCE 15" WIRELESS COMPANIES OF 2007

Omnilink Systems on Leading Edge of Wireless Technology

Alpharetta, GA – April 23, 2007 – Omnilink Systems announced today that it has been named to the annual FierceWireless "Fierce 15" list, designating it as one of the top wireless companies of the year. FierceWireless editors evaluated hundreds of organizations, and found Omnilink Systems to be amongst the "fiercest," proven by their creativity and innovations in the marketplace.

FierceWireless, an internationally recognized daily email newsletter reaching more than 74,000 senior wireless industry executives, provides executives in over 100 countries with a quick, authoritative briefing on the day's top wireless stories, including new trends and technologies.

"Omnilink is a wireless trendsetter – the firm's use of GPS, RFID and cellular to monitor and track assets is truly innovative," said Sue Marek, Editor-in-Chief of FierceMarkets.

Omnilink's monitoring solutions bring an unprecedented level of efficiency and effectiveness to alternative sanction programs. The company uses a combination of Global Positioning Systems (GPS), wireless network technologies, RFID and situation-specific sensors to transmit information to a monitoring center using commercial, cellular networks and then applying predefined supervision rules on a web-based application.

Omnilink's innovative offender management technology provides sophisticated location awareness information in real time and even when offenders might be inside buildings, buses, trains and more. No other technology in this industry locates offenders in buildings, cars, trains, or buses.

"We are thrilled to be recognized by FierceWireless, the industry's must-read news leader," said Steve Hudson, vice president of business development for Omnilink Systems. "The wireless community depends on FierceWireless to provide the most up-to-date news along with analysis of major industry trends. It is an honor to be recognized by such a well-regarded news outlet."

The FierceWireless "Fierce 15" celebrates the spirit of being "fierce" – championing innovation and creativity, even in the face of intense competition. The complete list of winning companies is available today in a special issue of FierceWireless and on the FierceWireless Web site at <http://www.fiercewireless.com>.
